Beans are in good demand with a firmer undertone. Market movement is still busy moving contracted beans while the spot market is limited. Brazil has been taking pintos and black beans in recently. According to the NASS crop production report July 12, 2016, dry edible beans are 1,689, chickpeas are 281.3, dry edible peas are 1,268 and lentils are 930 per 1,000 acres. Peas and lentils are being delayed due to rains pushing wheat harvest back this year. North Dakota got hit with more rain this weekend and crop damage is still being accessed.
