Trading activity was slow on light demand. Movement of beans is steady with moderate interest still in the foreign markets. Report contacts reported that Mexico is experiencing 30-35 percent reduction in the crop that is being harvested. Pintos, black and garbonzos are firmer this week. The holidays are upon us next week and this report will be shutdown for two weeks, but will be released again on January 5, 2016 of the new year. Happy holidays.
