## This Week's Turkey Feature Highlights

Over half of sampled stores are promoting turkey products this week. Promotional activity is very active in the Eastern and Western regions, but less so in the Central region. More stores offer frozen whole turkeys, mostly in the East, in a similar trend from a year ago. Fewer bone-in breasts and rotisserie breasts are featured, although prices are more competitive this week. Retailers show little interest in promoting boneless white meat. Fresh drums and wings are popular and mostly priced to catch the customer's attention. Ground turkey hasn't been this active since Memorial Day. Sausage and 93% lean are the favorite choices for the grill with ground breast a distant third. Many stores are already posting Independence Day ads as the long holiday weekend approaches.

All report information gathered from publicly available sources including store circulars, newspaper ads, and retailer websites.

1/ Feature Rate: the amount of sampled stores advertising <u>any</u> reported turkey item during the current week, expressed as a percentage of the total sample. 2/ Activity Index: a measure of the absolute frequency of feature activity equal to the total number of stores for each advertised turkey item (e.g., a retailer with 100 outlets featuring 3 turkey items has an activity index of 300). 3/ Stores/Avg: the total number of advertising outlets and the weighted average price weighted by the respective number of outlets. 4/ Special Rate: the percentage of sampled stores with a no-price promotion (e.g., buy 1, get 1 free, etc.)

Note: rolls not included in ground fresh ground turkey total and weighted average.
