This Week's Chicken Feature Highlights

The volume of chickens featured this period increases while 'no price' incentives drop slightly. Whole birds move higher on the activity chart. Roasters aren't as popular as last week, but all other types are out front in the meat case. Offers for white parts shift lower. Wings enjoy a large portion of ad space and are offered at lower prices while split breasts fade into the background. Dark parts inch ahead in activity as leg quarters and bulk packs take the lead. IQF ads surge ahead with all items filling more ad space; prices are mixed. More cooking is being done at home as the deli cools off, but wings and fried/baked items can still be found. Specialty and organic are going in different directions, but this time organic is more popular as promotions for specialty slow down.
