(F.O.B. Shipper Dock or equivalent; negotiated prices in trucklot and less-than-trucklot volumes reported in thousand pound quantities, cents/pound; delivery within 2 weeks.)

MSC prices trended steady on all fat contents going into the Christmas holiday weekend. Supplies of fresh 15-20% were moderate to heavy with the balance light to moderate. Schedules were seasonally reduced. Domestic demand was seasonally light with export demand mixed. Market activity was slow to moderate. For the most part 2011 contract negotiations have been finalized domestically, however negotiations persist with Mexico. Contract prices for 2011 were confirmed at prices at or below last year's low side and consistent with the current spot marketplace. Despite the anticipated holiday reductions in production schedules for both suppliers and processors, many suppliers find themselves with some extra MSC for the spot marketplace and were trying to stay ahead by either rendering frames or selling out front. Trucking issues persist. Supplies of raw materials were moderate to heavy. Frame values were steady at mostly 6-8 cents FOB.
