WEEK IN REVIEW

Prices were slightly mixed this week with pricing in the Central and Western regions unchanged to higher while pricing in the Eastern region continued slightly lower. Offerings of all sizes are moderate to at times heavy with extremely hot weather that many states across the U.S. are experiencing already tightening up bird supplies. Retail and food service demand is light to moderate, fast food interest is fairly good. Demand is moderate to light with the upcoming holiday providing some additional interest and has also limited some of the discounting in many areas. Market activity is slow to moderate.
