Prices remain steady on very light demand and mostly inactive trading activity. Transportation of beans continues to be the largest issue facing the markets, as railroads are reporting delays on shipments for several weeks due to weather, track availability, and a limited supply of railcars. Inventories and carryover of Light Red Kidney Beans, Dark Red Kidney Beans, and Great Northern Beans are very limited. Inventory levels of the remaining varieties of beans seem to be behind averages for this time of year.

## CALIFORNIA

Trading activity has slowed, because producers and warehouses are concerned about irrigation availability for next year's crop. As a result, many warehouses are sitting on their current inventory until a better understanding of the impacts of the drought are outlined. Trading activity was slow on very good buyer demand. Dealer: Baby Limas, Large Limas, Blackeye beans, and Garbanzo beans were not established. Grower: Blackeyes Limas traded steady. Baby Limas, Large Limas, Canning Quality Large Limas, and Garbanzo beans were not established.
