greeley.lgmn@ams.usda.gov

Trading activity was slow on very light demand. Harvest is getting close and deals are being made to move existing crop to make room for this new crop. According to U.S. Drought Monitor, the 6-10 day and 8-14 day outlooks keep the area of below-normal temperatures across the Northern Rockies to Northeast, with warmer-than-normal temperatures expected for the southern tier States, West Coast, and most of Alaska.
