Trading activity was slow on very light demand. Prices reflect new crop. With harvest well underway in all bean growing regions growers are reluctant to sell large volumes of beans at the current bids. With that said there is increased trading being reported over last week. Even with the strong U.S. dollar export demand is moderate to good. According to the NASS crop progress report, Montana has 93 percent, Colorado has 18 percent, Michigan 15 percent, Idaho has 85 percent, Minnesota has 77 percent, Wyoming has 37 percent, Nebraska has 47 percent and North Dakota has 72 percent harvested.
