Trading activity was slow on light demand. Movement of beans is steady with moderate interest still in the foreign markets. Pintos and Garbanzos are firmer again this week with a firmer undertone for other varieties. The Peso hit a record last Thursday hitting over 19 and is still hovering around that number this week. Oil prices in the upper twenties and the strength of the U.S. dollar are effecting makets.***The 2014 Bean Market News Summary is now available at the following website -<http://www.ams.usda.gov/mnreports/lmaba.pdf> ***
