

Weekly Dry Bean, Pea and Lentil Market News

Wednesday, August 30, 2017 - Tuesday, September 05, 2017

Compared to a week ago: Trading activity was slow with good demand. New crop prices are reported below with dry edible bean harvest underway in all regions. Still early to put a average yield to this new crop. Report contacts are reporting little disease with new crop coming in. According to Sept 5 (Reuters) - Hurricane Irma strengthened into a highly dangerous Category 5 storm on Tuesday as it barreled toward the Caribbean and the southern United States, even as Texas and Louisiana still reeled from devastating Hurricane Harvey. According to the current AQI, it has Spokane WA in the hazardous and very unhealthy air quality due to all the fires.
